Mr. Mark Gardner, PM - LTPP Southern Regional Contract
Mr. Kevin Senn, PM - LTPP Western Regional Contract

Attached is Long Term Pavement Performance (LTPP) Program Directive D-39, which issues the initial release of the Distress Viewer and Analysis (DiVA) Software, Version 1.0. The software is intended for use as a tool by the regional contractors, as an integral part of their office QC activities, in the time series evaluation of distress data.

Please make this directive available to all personnel involved in distress data processing and QC activities.

If you have any questions concerning this transmittal, please do not hesitate to call me at (202) 493-3144.

Attachment

LONG TERM PAVEMENT PERFORMANCE PROGRAM DIRECTIVE

For the Technical Direction of the LTPP Program

Program Area:	Monitoring	Directive Number:	D-39
Date:	August 30, 2004	Supersedes:	N/A
Subject:	Initial Release of Distress Viewer and Analysis (DiVA) Software, Version 1.0		

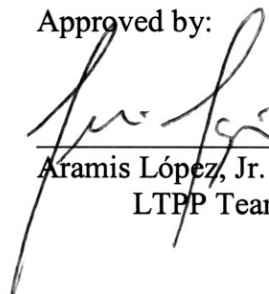

Version 1.0 of the Distress Viewer and Analysis (DiVA) software was made available earlier via CD ROM from the LTPP Southern Regional Services Contractor (RSC). The software is intended for use as a tool by the regional contractors, as an integral part of their office QC activities, in the time series evaluation of distress data.

Effective immediately, the software shall be installed on RSC computers used by personnel who review and process distress data. Installation instructions and a user's guide are included in the software distribution CD ROM. In addition, regional contractors shall begin using the software routinely in their time series review of distress data in accordance with *LTPP Directive D-30: Guidance for RSC Time Series Review of Distress Data* or latest version of directive.

If there are any problems, please submit a problem report in accordance with *LTPP Monitoring Directive D-04: Distress Problem Report (DISTPR) Form* or latest version of directive.
